STEP-BY-STEP

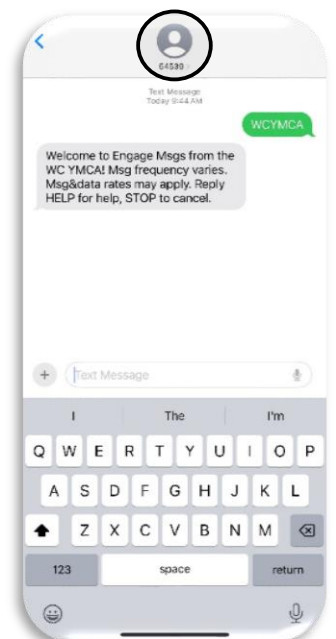

HOW TO OPT-IN FOR TEXT MESSAGES

Step 1. Open your text messages and start a new message. Once you pull up a blank new message to start, type in the number 54539. Once you type in the number, type in WCYMCA. Then hit your send button.

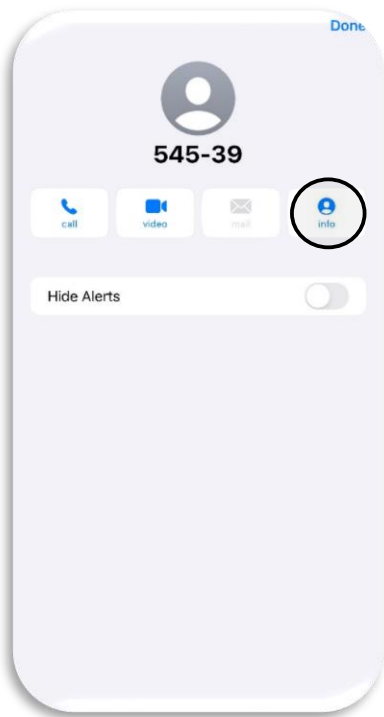

Step 2. After you hit send, you will get a welcome message from our Daxko Engage Communication System saying you are opted in. If you wish to stop receiving texts from us, just simply text STOP and you will be opted-out of our text messaging system. All members AND non-members can opt-in for our text messaging.

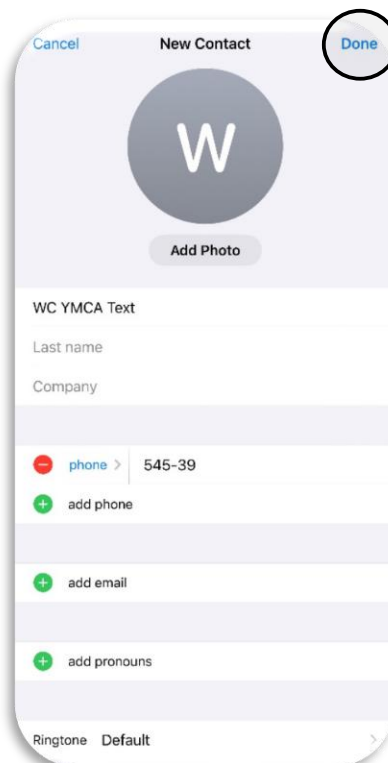

After you are opted-in, we recommend you saving us in your contacts for future texts so you remember who you are receiving messages from. To save us in your contacts, click on the person on top of your screen with our number underneath. We have circled it for you.

Step 3. You will see this page come up. Click the button that says, "Info", we have circled it for your reference. This will bring you to the next page to add a contact.

Step 4. You can name us in your contacts however you'd like. For this example, we named us, "WC YMCA Text" for your reference. Once you add a name for us, you will select, "Done" in the right top corner of your screen. We have circled it for you to see.

Step 5. Once you have opted-in & saved us in your phone contacts for future reference, your text messages from here on out should like the one pictured below. If you have any questions, please contact us at 309-734-3183. We are happy to keep our community in the loop!
